

## Disclaimer for Industry Standards Manual

This publication is designed to provide accurate and authoritative information in regard to the subject matter covered. It is sold with the understanding that the publisher is not engaged in rendering legal, accounting, or other professional service. If legal advice or other expert assistance is required, the services of a competent professional should be sought.

The use and application of these guidelines with regard to residential construction work is strictly optional and at the discretion of the individual users, and if implemented, only refers to contractor-installed materials and services and not elements contracted by consumers and other trade contractors.

Nothing in this manual should be construed as policy, an endorsement, warranty (express or implied), or guaranty by the Home Builders Association of St. Louis and Eastern Missouri or any persons or organizations involved in the creation of this manual of any technical descriptions, systems, details, requirements, materials, or products.

The Home Builders Association of St. Louis and Eastern Missouri expressly disclaims any responsibility for any damage arising from the use, application, or reliance on the recommendations and information contained in this manual.
